Bill,

Yes, I concur there was EPA approval to proceed for site inspections based on a final Health and Safety Plan.

Bill,

Please consider this my authorization to conduct the required inspections on the site as outlined in your message below. If you have any questions feel free to contact me.

Dennis

Subject: Access to The Dalles site

Dennis- Lockheed Martin/Arcadis are required to do routine inspections of the site, and would like to complete a necessary inspection this week. EPA's July 20, 2012 letter directed Lockheed Martin, its contractors, and other parties from accessing the site until EPA approves the Health and Safety Plan ("Before LMC takes immediate action to secure the Site, LMC must ensure that an EPA-reviewed Health and Safety Plan (HSP 2) is in place before any LMC employee, agent, authorized representative or contractor accesses the Site..."). A Health and Safety Plan addendum was submitted to EPA on July 25.

Please provide authorization for Lockheed Martin and its contractors to enter the site for purposes of permit- and Consent order-required work. Such entry would be restricted to properly trained personnel working under the Health and Safety Plan.
